Amendments to the Specification:

At page one, after the title and before the first sentence, please insert the following

paragraph:

-- This application is a continuation of PCT Patent Application

No. PCT/NL02/00371, designating the United States and filed 7 June 2002; which claims

the benefit of European Patent Application Serial No. 01202220.8, filed 8 June 2001;

both of which are hereby incorporated herein by reference.--

After page 18, on new page 19, please insert the following abstract:

-- ABSTRACT OF THE DISCLOSURE

The invention relates to a method of determining in vitro the capacity of a cell population

to induce bone formation in vivo comprising the steps of: a providing a sample of a cell

population; b) dividing said sample into a first and a second part containing an equal number of

cells; c) culturing the first part in the presence of an osteogenic stimulation factor; d) culturing

the second part in the absence of an osteogenic stimulation factor; e) determining degrees of

expression of a bone-specific protein; and f) comparing the degrees of expression of the bone-

specific protein of the first part and the second part thereby providing a measure for the capacity

of the bone cell population to induce bone formation in vivo.--

New page 19 of the application with the abstract is also being herewith submitted.
